### **Approval**

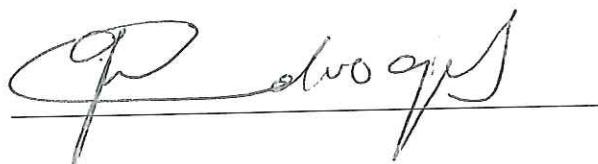

The Top Layer Service Delivery Budget Implementation Plan is herewith approved in terms of Section 53(I)(c)(ii) of the Municipal Finance Management Act (MFMA).

Print Name

Isak Windvogel

Executive Mayor of Central Karoo District Municipality

Signature

Date

09 July 20

## ***Executive Summary***

---

The Municipality is required to produce a Service Delivery and Budget Implementation Plan to show the following:

- Monthly projections of revenue and expenditure for the operating and capital budgets
- Quarterly service delivery targets and performance indicators.

Each month the Municipal Manager must present the Mayor with a report showing how income and spending is progressing against these projections.

Every quarter the Mayor must report to Council on the progress of the budget.

## ***Service Delivery Targets and Performance Indicators***

---

Each Directorate has to provide quarterly targets so that performance can be monitored throughout the year. The Municipal Manager's and Director's performance contracts must contain these targets. The performance targets cannot be changed during the year unless Council approves the changes. The performance targets for 2020/21 are contained in the accompanying Estimates Annexure document.

## ***Introduction***

---

A Service Delivery and Budget Implementation Plan is defined in Chapter 1 of the Act as a detailed plan approved by the Executive Mayor for implementing the municipality's delivery of municipal services and its annual budget.

Essentially a business plan, the SDBIP is an integral part of the financial planning process. Although its approval is required after the budget preparation has occurred in tandem with the budget process. The SDBIP is the connection between the budget and management performance agreements, and it includes detailed information on how the budget will be implemented – by means of forecast cash flows – and service delivery targets and performance indicators.

## ***The Components of a SDBIP***

---

The five necessary components of a SDBIP are: -

1. Monthly projections of revenue to be collected for each source.
2. Monthly projections of expenditure (operating and capital) and revenue for each vote.
3. Quarterly projections of service delivery targets and performance indicators for each vote.
4. Ward information for expenditure and service delivery.
5. Capital works plans.

The SDBIP is the formal link between organisational performance and the Budget. It also provides a means to measure cost effective service delivery by linking the inputs – the budget – to the service outputs and outcomes.

## **The SDBIP Concept**

---

National Treasury, in MFMA circular 13, outlined the concept of the SDBIP. It is seen as a contract between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months.

It is a management, implementation and monitoring tool that will assist the Executive Mayor, Councillors, Municipal Manager, Senior Managers and community. It is also a performance monitoring tool that enables the Municipal Manager to monitor the performance of senior managers. The MFMA requires that the performance agreements of senior managers be linked to the measurable performance objectives in the SDBIP.

As a vital monitoring tool, the SDBIP should help enable the Executive Mayor and Municipal Manager to be pro-active and take remedial steps in the event of poor performance.

The SDBIP is considered as a layered plan. Whilst only the top layer is made public at council, the budget and performance targets should be broken down into smaller targets and cascaded to middle-level and junior managers. Directorates should be producing their own SDBIP's which roll up into the municipality's SDBIP.

## **MFMA requirement - Approval of the SDBIP**

---

Under the MFMA the process for approval of the SDBIP is covered under Chapter 7 - Responsibilities of Mayors and Chapter 8 - Responsibilities of municipal officials.

Under chapter 8 the Accounting Officer must submit a draft of the SDBIP to the Executive Mayor within 14 days of the budget being approved as well as drafts of the annual performance agreements required in the Municipal Systems Act.

Chapter 7 of the MFMA requires the Executive Mayor to "take all reasonable steps" to ensure that the SDBIP is approved by the mayor within 28 days after the approval of the budget and that the SDBIP is made public no later than 14 days after that.

## **MFMA requirement – Implementation & monitoring**

---

Section 54 sets out the responsibilities of the Executive Mayor with regard to budgetary control and the early identification of financial problems.

When a budget monitoring report is received under section 71 or 72 of the MFMA, the Executive Mayor must check whether the budget is being implemented in accordance with the SDBIP.

If it is decided to amend the SDBIP, any revisions to the service delivery targets and performance indicators must be made with the approval of council following an adjustments budget. The Executive Mayor must issue instructions to the accounting officer to ensure that the budget is implemented in terms of the SDBIP. The revised SDBIP must be promptly made available to the public.

## **Operating Expenditure**

---

The annual operating budget has been broken down into monthly projections by applying the trends of previous years' spending to each line item in the budget. The Operating expenditure budget, excluding recharges, for 2020/21 is R 100 231 946,04.

## **Operating Income**

---

Again, previous year trends have been used to provide the estimates for 2020/21. The estimates are based on budgeted income rather than cash collected.

The Operating income budget for 2020/21 is R 101 014 853,00

## **Capital Expenditure**

---

The Capital budget for 2020/21 is R 428 100,00.

## ***Service Delivery Targets and Performance Indicators***

---

A number of meetings were held with directorates and the performance indicators and targets were developed. These targets have been included in the 2020/21 SDBIP.

The targets and indicators attempt to measure a range of activities in the municipality. It will be the responsibility of directorates to provide information on progress towards achieving these targets on a quarterly basis.

Any revision to the SDBIP resulting from a change in Performance Indicators will be reported to Council for approval in terms of Section 54 (c) of the MFMA.

## ***Monitoring and the adjustments budget process***

---

The section 71 and 72 budget monitoring reports required under the MFMA should provide a consolidated analysis of the Municipality's financial position including year-end projections.

As detailed earlier, the Executive Mayor must consider these reports under s54 of the MFMA and then make a decision as to whether the SDBIP should be amended.

The Adjustments Budget concept is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the municipality's finances.

In simple terms, funds can be transferred within a vote but any movements between votes can only be agreed by an adjustments budget.
